

Species At Risk Act (SARA) Consultation, Cooperation and Accommodation Virtual Workshop

## Tools and Resources Training Session

Hosted by:

Environment and Climate Change Canada (ECCC)

The Centre for Indigenous Environmental Resources (CIER)

### Speaker Bios

#### **Keisha Moffat, National Aboriginal Land Managers Association (NALMA)**

Keisha Moffat is from the Mi'gmaq community of Uppi'ganjig located in Northern New Brunswick. She has over 5 years of experience working in the environment sector as an educator, communicator, researcher, and project coordinator. She holds a Master's degree in Environmental Practice from Royal Roads University. Keisha works at the National Aboriginal Lands Managers Association as the Environment Coordinator where she provides training, technical support, and develops resources to support Indigenous Nations in managing their lands and environment.

#### **Shianne McKay, Centre for Indigenous Environmental Resources (CIER)**

Shianne is Ojibway and a member of the Pine Creek First Nation in Manitoba. Shianne has 14 years of experience in the Environmental Conservation Sciences field; 13 years working directly with First Nation communities. Shianne joined CIER in September 2009 and is currently one of CIER's Senior Project Managers. She is responsible for all stages in developing and delivering projects related to CIER's program areas and developing and maintaining collaborative initiatives and partnerships with different Nations, government agencies and other public and private entities. In her free time, Shianne enjoys being outdoors with her family- hiking, camping, fishing, and having large family picnics or potlucks. She truly is at home in the kitchen or bush campfire and loves to cook and bake.

#### **Katrina Stipek, Government of British Columbia Conservation Data Centre (CDC)**

Katrina Stipek has worked with the BC Conservation Data Centre, since 2005 and has focused much of her work on helping clients access species and ecosystems data and information. Katrina completed her Bachelor of Science in Geography from the University of Victoria in 1998. Prior to joining the CDC she worked in a number of roles that have included sensitive habitat mapping, remote sensing, GIS and forestry.

#### **Danielle Prevost, Environment and Climate Change Canada (ECCC)**

Danielle Prevost is an Indigenous Stewardship Biologist with Environment Climate Change Canada's Canadian Wildlife Service. She has worked with communities throughout BC on conservation with a focus on species at risk. Danielle has a passion for all wildlife but feels a closest kinship to frogs, as the most constant thing in her work and life is change. Danielle focuses on building strong partnerships and friendships to navigate these changes together.
