Having trouble?
To help you get started...

Ecoversity is optimized for Chrome or Firefox browsers on a desktop or laptop device. Please ensure the browser is up-to-date and ad blockers or similar plug-ins are disabled.

You must register FIRST by completing the form to become a registered user. You will then receive a confirmation email. You can't login or enroll until you do.

Due to security reasons, you need to become a registered user first before you can enroll in any course. If you attempt to login without a user account, you will be blocked by the system website security — this is not an error.

If you have followed the above steps and remain unable to enrol, please contact earth@yourcier.org.
